Beth has over twenty years of actuarial and consulting experience. She is a consulting actuary supporting our clients' administration and compliance for both traditional and cash balance defined benefit plans, preparing actuarial valuations for funding and accounting disclosures, and conducting various forecasting and risk management projects. She has gained in-depth experience in the administration of plans with multiple benefit structures, minimums, and transition benefits, and has helped clients gain greater automation and efficiency through streamlining plan provisions and processes. She has worked on a wide variety of pension plan designs, including qualified and nonqualified plans.
